

KS1 Maths Quiz - Year 1 Numbers - Number Lines (Questions)

This quiz addresses the requirements of the National Curriculum KS1 Maths and Numeracy for children aged 5 and 6 in year 1. Specifically this quiz is aimed at the section dealing with using number lines to identify and represent numbers.

Using number lines as a form of representing numbers is useful in lots of different ways in maths. They can help with counting forwards or backwards, help to find the answer when adding or subtracting and they can even help with times tables. Knowing how number lines represent numbers and how to use them well will help make number work much easier!

1. What is wrong with this number line?

- All the numbers are odd
- The numbers are not in the correct order
- There are too many numbers
- All the numbers are even

2. Which numbers are missing from this number line?

- 7, 8, 15, 20
- 8, 9, 15, 19
- 7, 15, 19, 20
- 4, 8, 9, 10

3. Which other numbers might you find on this part of the number line?

- 4, 5, 7
- 46, 49, 52
- 75, 80, 85
- 18, 20, 27

4. Which numbers are missing from this number line?

- 4, 7, 16
- 5, 11, 16
- 5, 9, 11
- 9, 12, 17

5. Which numbers are missing from this number line?

- 49, 50, 51
- 50, 51, 52
- 50, 55, 59
- 50, 55, 60

6. What would be the last number of this part of the number line?

- 20
- 29
- 54
- 32

7. Which number would be found at the beginning of this number line?

- 53
- 50
- 23
- 35

9. Which numbers are missing from this number line?

- 24, 25, 29
- 25, 27, 31
- 42, 52, 92
- 24, 29, 31

8. What is special about all the numbers missing from this number line?

- They all end with 2
- They are all odd
- They are all even
- They are all more than 30

10. Which other numbers might you find on this part of the number line?

- 66, 67, 68
- 1, 3, 5
- 35, 37, 39
- 12, 14, 20

KS1 Maths Quiz - Year 1 Numbers - Number Lines (Answers)

1. What is wrong with this number line?

- All the numbers are odd
- The numbers are not in the correct order
- There are too many numbers
- All the numbers are even

Saying the numbers aloud will sound all wrong!

2. Which numbers are missing from this number line?

- 7, 8, 15, 20
- 8, 9, 15, 19
- 7, 15, 19, 20
- 4, 8, 9, 10

Counting out loud will help you fill the blanks

3. Which other numbers might you find on this part of the number line?

- 4, 5, 7
- 46, 49, 52
- 75, 80, 85
- 18, 20, 27

Count forwards and backwards from the centre number

4. Which numbers are missing from this number line?

- 4, 7, 16
- 5, 11, 16
- 5, 9, 11
- 9, 12, 17

Say the numbers as you count up

5. Which numbers are missing from this number line?

- 49, 50, 51
- 50, 51, 52
- 50, 55, 59
- 50, 55, 60

Look at the numbers which come before and after the blank spaces

6. What would be the last number of this part of the number line?

- 20
- 29
- 54
- 32

Pointing to each mark and saying the number is helpful

7. Which number would be found at the beginning of this number line?

- 53
- 50
- 23
- 35

Pointing and counting down aloud may help

9. Which numbers are missing from this number line?

- 24, 25, 29
- 25, 27, 31
- 42, 52, 92
- 24, 29, 31

Look at the numbers which come before and after the blank spaces

8. What is special about all the numbers missing from this number line?

- They all end with 2
- They are all odd
- They are all even
- They are all more than 30

These numbers are in the two times table

10. Which other numbers might you find on this part of the number line?

- 66, 67, 68
- 1, 3, 5
- 35, 37, 39
- 12, 14, 20

Count forwards and backwards from the centre number
