

## KS1 Maths Quiz - Year 2 Numbers - Number Lines (Questions)

This quiz addresses the requirements of the National Curriculum KS1 Maths and Numeracy for children aged 6 and 7 in year 2. Specifically this quiz is aimed at the section dealing with counting on from any given number.

Children in Year 2 should be quite familiar with the number line. They may use it to count on or back, or to calculate additions or subtractions. Understanding the value of numbers means being able to recognise where numbers should come in relation to each other, as well as being able to recognise any missing numbers in a set.

This quiz will help children to use number lines when counting on from any given number.

1. Which number will come next on this number line?

- 60
- 67
- 63
- 70

2. Which three numbers are missing from the number line?

- 75, 76 and 77
- 72, 74 and 77
- 74, 75 and 79
- 80, 90 and 100

3. What is happening on this number line?

- The numbers are getting smaller
- The numbers are all even
- The numbers are going up in 5s
- The numbers are all odd

4. Which numbers could be on this part of the number line?

- 88, 89, 90
- 2, 3, 4
- 66, 67, 68
- 20, 21, 22

5. Which two numbers are missing from the number line?

- 26 and 31
- 25 and 29
- 29 and 40
- 23 and 27

6. Which number is missing from the number line?

- 5
- 8
- 9
- 2

7. Which two numbers are missing from the number line?

- 44 and 51
- 45 and 49
- 51 and 58
- 44 and 49

8. What is special about the missing numbers on this number line?

- They are all even
- They are all odd
- They are all over 10
- They all end in 5

9. Which number is missing from the number line?

- 25
- 30
- 39
- 28

10. Which numbers could be on this part of the number line?

- 39, 44, 47
- 8, 9, 10
- 77, 87, 90
- 20, 23, 27

## KS1 Maths Quiz - Year 2 Numbers - Number Lines (Answers)

1. Which number will come next on this number line?

- 60
- 67
- 63
- 70

The numbers are going down, not up

2. Which three numbers are missing from the number line?

- 75, 76 and 77
- 72, 74 and 77
- 74, 75 and 79
- 80, 90 and 100

Counting up aloud will help identify the missing numbers

3. What is happening on this number line?

- The numbers are getting smaller
- The numbers are all even
- The numbers are going up in 5s
- The numbers are all odd

Each number is 5 more than the one before it

4. Which numbers could be on this part of the number line?

- 88, 89, 90
- 2, 3, 4
- 66, 67, 68
- 20, 21, 22

Counting up from 17 and 18 would include 20, 21 and 22

5. Which two numbers are missing from the number line?

- 26 and 31
- 25 and 29
- 29 and 40
- 23 and 27

25 comes before 26, and 29 comes between 28 and 30

7. Which two numbers are missing from the number line?

- 44 and 51
- 45 and 49
- 51 and 58
- 44 and 49

Looking at the numbers on either side might be helpful

9. Which number is missing from the number line?

- 25
- 30
- 39
- 28

30 comes before 31, and after 29

6. Which number is missing from the number line?

- 5
- 8
- 9
- 2

4 comes before 5, 6 comes after

8. What is special about the missing numbers on this number line?

- They are all even
- They are all odd
- They are all over 10
- They all end in 5

The missing numbers are 1, 3, 5, 7 and 9, which are all odd numbers

10. Which numbers could be on this part of the number line?

- 39, 44, 47
- 8, 9, 10
- 77, 87, 90
- 20, 23, 27

Counting backwards and forwards from 43 includes the numbers 39, 44 and 47
