

KS1 Maths Quiz - Year 2 Numbers - Place Value and Comparing (Questions)

This quiz addresses the requirements of the National Curriculum KS1 Maths and Numeracy for children aged 6 and 7 in year 2. Specifically this quiz is aimed at the section dealing with comparing numbers to at least 100.

Understanding the place value of digits within numbers helps to order and compare numbers up to one hundred. Children in Year 2 should begin to use this knowledge to help them order numbers up to 100 from smallest to largest, place numbers on a number line and compare numbers, knowing which have smaller or larger values than others.
