

## KS1 Science Quiz - Animals - Growth from Babies to Adults (Questions)

This quiz addresses the requirements of the National Curriculum KS1 Science for children aged 5 and 6 in years 1 and 2. Specifically this quiz is aimed at the section dealing with animal growth.

One of the things that you have found out in science is that all animals grow. They get bigger. Sometimes the adults can look quite different to the babies. Some animals hatch from eggs. Birds do this. Baby birds, or chicks, hatch from eggs. Then they grow into adult birds like chickens. Let's find out more about young animals and how they grow up.

1. Where does the robin lay its eggs?

- In a nest
- On a leaf
- On a rock
- On the road

2. What is the missing word?

Egg → \_\_\_\_\_ → Chicken

- Hen
- Duck
- Goose
- Chick

- Bird
- Fish
- Mammal
- Reptile

4. Chicks come from eggs. This chick has just left the egg. What do we call it when the chick leaves the egg?

- Hatching
- Sleeping
- Turning
- Waking

5. What are ducklings when they grow up?

- Chickens
- Geese
- Swans
- Ducks

6. What do we call a baby goose?

- Duckling
- Chick
- Gosling
- Cygnet

7. What do we call baby chickens?

- Hens
- Ducks
- Chicks
- Lambs

8. The picture shows a baby robin chick. It has just left the nest.

What is the missing word?

\_\_\_\_\_ → Chick → Robin

- Hen
- Egg
- Nest
- Baby

9. A baby kangaroo is carried by its mother in a \_\_\_\_\_.

- Basket
- Cot
- Buggy
- Pouch

10. Birds lay eggs. So do reptiles. Which one of these animals is a reptile?

- Tortoise
- Hippopotamus
- Rhinoceros
- Crab

## KS1 Science Quiz - Animals - Growth from Babies to Adults (Answers)

1. Where does the robin lay its eggs?

- In a nest
- On a leaf
- On a rock
- On the road

Robin eggs have blue shells

2. What is the missing word?

Egg → \_\_\_\_\_ → Chicken

- Hen
- Duck
- Goose
- Chick

Older chickens are often called hens

3. This is a fossil. It is a dinosaur egg. Dinosaurs lived in the past. What type of animal was a dinosaur?

- Bird
- Fish
- Mammal
- Reptile

Baby dinosaurs hatched from eggs. Then they grew very, very big!

4. Chicks come from eggs. This chick has just left the egg. What do we call it when the chick leaves the egg?

- Hatching
- Sleeping
- Turning
- Waking

Have you ever seen a chick hatch from an egg?

5. What are ducklings when they grow up?

- Chickens
- Geese
- Swans
- Ducks

Ducks are very good swimmers

6. What do we call a baby goose?

- Duckling
- Chick
- Gosling
- Cygnet

Goslings are baby geese. Cygnets are baby swans

7. What do we call baby chickens?

- Hens
- Ducks
- Chicks
- Lambs

Have you ever held a chick in your hand?

8. The picture shows a baby robin chick. It has just left the nest.

What is the missing word?

\_\_\_\_\_ → Chick → Robin

- Hen
- Egg
- Nest
