

KS1 Science Quiz - Living Things - Animal Habitats (Questions)

This quiz addresses the requirements of the National Curriculum KS1 Science for children aged 5 and 6 in years 1 and 2. Specifically this quiz is aimed at the section dealing with living things and animal habitats.

Where we live is called our home. We live in houses and flats. Some of us live in towns and cities. Some of us live in the countryside. Where do you live? The sort of place you live is called your habitat. When studying living things you will see that other animals also have habitats. Animals live in all sorts of different places, from hot deserts to the ice and snow of the North Pole. This living things quiz is about where different animals make their homes.

1. The sheep is in a field. Why does the sheep like living in this field?

- There are lots of trees
- The sheep is on its own
- There is a lot of grass
- The sheep has lots of wool

KS1 Science Quiz - Living Things - Animal Habitats (Answers)

1. The sheep is in a field. Why does the sheep like living in this field?

- There are lots of trees
- The sheep is on its own
- There is a lot of grass
- The sheep has lots of wool

Sheep love a green field with lots and lots of grass to eat. But sheep do not like to be on their own. There are other sheep in this field

2. Why do fish like to live in the sea?

- They can walk
- They can talk
- They can read
- They can swim

Fish love to be in water. They are very good swimmers

3. A crow has built this nest. Where does this bird like to build its nest?

- In a tree
- On the ground
- On a rock
- On a cliff

Lots of birds build their nests in trees. But some do build their nests on rocks, on cliffs or on the ground

4. Where does the camel like to live?

- In the jungle
- In the desert
- Where it is very cold
- Where it is very wet

Camels like living in the desert. They can go for days without drinking any water

5. What is the dolphin's habitat?

- Woodland
- Grassland
- Mountains
- Oceans

Dolphins are at home in the water

6. Where do frogs like to live?

- Deserts
- Towns
- Mountains
- Ponds

Frogs have to live near water. Frogs like ponds best

7. This animal is called a Mountain Goat. Where does it live?

- On very high mountains
- On low hills
- In valleys
- By the sea

The Mountain Goat really does live high up in the mountains. It is very brave - it is not scared of heights

8. Where does this gorilla live?

- Sea
- Desert
- Field
- Jungle

Fish live in the sea. Camels live in the desert. Cows live in fields. Lots of animals live in the jungle

9. This scorpion lives in the desert. What is its home like?

- Very wet
- Frozen
- Icy
- Very hot

Mind the sting in its tail! Desert scorpions have to live in a very hot, dry habitat

10. Polar Bears live near the North Pole. What is their home like?

- Very hot
- Very warm
- Very dry
- Very cold

Brrr! It is very cold at the North Pole. Polar Bears have thick fur to keep themselves warm
