

KS1 Science Quiz - Living Things - Food Sources (Questions)

This quiz addresses the requirements of the National Curriculum KS1 Science for children aged 5 and 6 in years 1 and 2. Specifically this quiz is aimed at the section dealing with living things and food sources.

What do living things eat? Plants make their own food. Where does our food come from? Where our food comes from is called its source. What about other animals? What is the source of their food? All animals eat other living things. Most eat plants but some animals eat other animals for their food. But where did the food come from originally? How energy passes from a plant to an animal and then to a predator is called a food chain. This quiz is all about food chains and what animals eat.

1. What do rabbits eat?

- Grass
- Spiders
- Snails
- Frogs

2. What do foxes eat?

- Rabbits
- Grass
- Spiders
- Snails

- Potato crisps
- Chips
- Sweets
- Flour

6. What do we use flour to make?

- Potato crisps
- Chips
- Bread
- Sweets

7. Where does beef come from?

- Chickens
- Pigs
- Sheep
- Cows

8. A lot of people like to eat beef. Here is how beef is made and gets to us. There is a word missing. What is the missing word?

Sun → Grass → ? → Beef → Us

- Trees
- Lions
- Fish
- Cows

9. A lot of people like to eat eggs. Here is how eggs are made and get to us. There is a word missing. What is the missing word?

Sun → Corn → ? → Eggs → Us

- Cows
- Chickens
- Fish
- Sheep

10. Where does milk come from? There is a word missing. What is the missing word?

Sun → ? → Cows → Milk → Us

- Chickens
- Trees
- Sheep
- Grass

KS1 Science Quiz - Living Things - Food Sources (Answers)

1. What do rabbits eat?

- Grass
- Spiders
- Snails
- Frogs

Rabbits eat grass and other plants

2. What do foxes eat?

- Rabbits
- Grass
- Spiders
- Snails
