

KS1 Science Quiz - Plants - Farming (Questions)

This quiz addresses the requirements of the National Curriculum KS1 Science for children aged 5 and 6 in years 1 and 2. Specifically this quiz is aimed at the section dealing with farming, keeping animals and growing plants as crops for food.

Where does your food come from? People go to shops and supermarkets to buy food. But how did the food get into the shops? Farmers grow plants as crops. They grow cereals. The cereals are made into food. Farmers grow vegetables. We eat the vegetables. Farmers also grow plants to feed animals. Grass grows in fields. Cows and sheep eat the grass. We get milk and meat from the cows and sheep. We all need farmers and their crops so we have food to eat.

1. Tom is eating cereal. Where does the food in the cereal come from?

- Plants
- Animals
- The air
- Water

2. Emily is pouring milk on her cornflakes. Where does the milk come from?
