

KS1 Science Quiz - Plants - Flowers (Questions)

This quiz addresses the requirements of the National Curriculum KS1 Science for children aged 5 and 6 in years 1 and 2. Specifically this quiz is aimed at the section dealing with the parts of a flower and plant reproduction.

In school, you have found out about plants and their parts. Lots of plants have colourful flowers as one of their parts. The flowers are used to reproduce. They make seeds. New plants can grow from the seeds. Then those new plants have flowers too. Do you know why many flowers are brightly coloured? Let's find out more about flowers and plant reproduction.
