

KS1 Science Quiz - Seasons And Weather - Types Of Weather (Questions)

This quiz addresses the requirements of the National Curriculum KS1 Science for children aged 5 and 6 in years 1 and 2. Specifically this quiz is aimed at the section dealing with the seasons and different types of weather.

The weather is different from one season to another. It also changes very quickly from one type to another - wind and rain one day, sunshine and showers the next day. In science at school you have studied the weather. This quiz is all about different types of weather we get in the different seasons - from snow and ice in winter to hot, sunny summer days. See just how well you can do.

1. Rain falls from the sky. But where does rain really come from?

- The Sun
- The Moon
- The stars
- The clouds

2. Sometimes the snow is very soft and slushy. It is called _____.

- Hail
- Mist
- Fog
- Sleet

3. It does not rain all the time. What do we call rain that does not last very long?

- A mist
- A fog
- A rainbow
- A shower

4. Mr Smith is walking home from the railway station. He can hardly see where he is going. This is because there is a thick ____.

- Rain
- Breeze
- Sleet
- Fog

5. When it is very cold, rain falls as ____.

- Mist
- Snow
- Grass
- Petals

6. Sometimes rain falls as round balls of ice. These are called _____.

- Icicles
- Snow flakes
- Hailstones
- Ice cubes

7. What will you hear next?

- Music
- Drums
- Thunder
- Sirens

8. This is not thick enough to be a fog. It is a ____.

- Shower
- Mist
- Breeze
- Cloud

9. Breeze, gale and storm are all types of ____.

- Cloud
- Wind
- Rain
- Snow

10. What do we call light rain?

- Hail
- Mist
- Drizzle
- Sleet

KS1 Science Quiz - Seasons And Weather - Types Of Weather (Answers)
